MIKI (f) & NIKI (f)

Microchip 900 164 000 314 099, Microchip 900 164 000 314 083

They are great cats, sisters and very closely bonded, but with quite distinct personalities.
Niki(Nikita) loves food (both hers and Miki's if you let her) and hence is a bit larger. She is very affectionate, almost like a dog. She is not keen on being picked up and held but loves being brushed. They were born 19/2/13
Miki (Mikaela) (on left) on the other hand is a lap cat, tolerates being picked up but not keen on being brushed..
They both are well behaved, rarely meow and very good on the toilet front. Importantly they let you sleep in in the morning (provided they had a supper the night before) and may even join you on the bed if that's what you want. They still enjoy playing, sleeping in shoe boxes (a tighter fit for Niki) and using the scratching post. Miki is a bit more inquisitive and independent and loves looking over the balcony rail and surveying the neighbourhood.
These two will make a lovely addition to your family. Can you offer them a furever home?

To adopt them, please visit our website & download a Cat Match application form.
For more information, ring David (02) 9693 5684, 7.30pm- 9pm mon-fri, 9am-9pm weekends
They are vaccinated, vet checked, flea/wormed, micro-chipped, FIV tested negative & de-sexed
