

POSSUM (f) microchip 982 009 106 001 129

Possum is bright and likes to play games. Once settled in (she can be rather shy initially), she is clever, faithful and loving, lies upside down to have her chin stroked and adores being brushed all over.

She has a very dear personality with a happy purr. indoor living would suit her well and limited exposure to the sun will protect her pink nose from skin cancer. Possum has blossomed so much and is now looking for a gentle and loving quiet home where she will be given time to settle in. She was born approx. June 2008

To adopt Possum, please visit our website & download a Cat Match application form. For more information, ring David (02) 9693 5684, 7.30pm- 9pm mon-fri, 9am-9pm weekends

Possum is vaccinated, vet checked, flea/wormed, micro-chipped & de-sexed
